PROS AND CONS

Times, Yet Legislation and European Situation Make It Very Dangerous WATCHES REPAIRED. Select

By MAX BUCKINGHAM

(Copyright by United Press) New York, Nov. 26 .- (U.P)-Favorable business statistics were offset by technical, fereign and legislative situations today to bring uncertainty to the shortterm stock market outlook.

Many traders believed that the uncertainty might well continue until the first of the year, with dipping and rising market—the type that is unsafe for the novice trader-prevailing.

From a business standpoint there is bullishness. Favorable items included:

1. Steel production continues maintaining the most consistent Crowded and flithy, the hogs high level since 1929, and likely will continue that way until the cannot be as healthy and sanitary year-end as result of buying as they should be to produce brought in by price rises after
